

ANNEX A

Company	Country	Sub-sector	Description
Aerocompact http://www.aerocompact.com	Austria	Solar	<ul style="list-style-type: none"> Aerodynamic mounting technology for solar panels. Providing mounting solution for solar panels for commercial roof-tops and the project-specific engineering.
Biogest Energie und Wassertechnik http://www.biogest.at	Austria	Biogas	<ul style="list-style-type: none"> Biogas plant manufacturer providing engineering operations across the entire biogas value chain, achieving outputs of 100 kW to 3,500 kW.
Fronius International http://www.fronius.com	Austria	Solar	<ul style="list-style-type: none"> A manufacturer of battery charging systems, welding technology and PV inverters.
Geppert http://www.geppert.at/	Austria	Hydropower	<ul style="list-style-type: none"> A supplier for electromechanical equipment with deliveries in 20 countries all over the world.
GILDEMEISTER energy storage http://energy.gildemeister.com	Austria	Management & control systems	<ul style="list-style-type: none"> The CellCube is a fully integrated plug and play energy storage system (ESS) based on Vanadium Redox-Flow (VRF) technology.
GUGLER Water Turbines http://www.gugler.com	Austria	Hydropower	<ul style="list-style-type: none"> Design and supply hydro turbines and construction of small hydropower plants, as well as the generation of hydroelectricity.
Swimsol http://www.swimsol.com	Austria	Solar	<ul style="list-style-type: none"> Build, design, install, operate, maintain and finance floating solar systems for tropical regions.
NovoPolymers http://www.novopolymers.com	Belgium	Solar	<ul style="list-style-type: none"> Supply a component for solar panel manufacturers
Triphase http://www.triphase.com	Belgium	Energy conservation technologies focused on reducing CO ² Emissions	<ul style="list-style-type: none"> A technology and platform provider of advanced electrical power conversion solutions.
SVCS Process Innovation http://www.svcs.cz	Czech Republic	Solar	<ul style="list-style-type: none"> Design and manufacturing of batch horizontal furnaces for the semiconductor and photovoltaic industries.

Company	Country	Sub-sector	Description
AC2SG Software http://en.ac2sg.com	Finland	Electric vehicles	<ul style="list-style-type: none"> Specialise in software products for planning and operating an electric vehicle charging business.
Norsepower http://www.norsepower.com	Finland	Wind	<ul style="list-style-type: none"> Pioneers the generation of renewable wind energy for the global marine industry
AQYLON http://www.aqylon.com	France	Power generation	<ul style="list-style-type: none"> Global leader in the design and manufacturing of Organic Rankine Cycle (ORC) solutions which transform heat into electricity and thermal power from renewable sources or from waste heat created by industrial processes, engines or gas turbines.
CNIM http://www.cnim.com	France	Waste management	<ul style="list-style-type: none"> Design and build turnkey plants in the fields of waste and energy.
ETIA http://www.etia.fr	France	Off-grid clean energy solutions	<ul style="list-style-type: none"> Specialise in providing innovative technologies to convert waste and biomass residue into valuable product and energy.
Evolution Energie http://evolutionenergie.com	France	Management & control systems	<ul style="list-style-type: none"> An energy management software suit allowing companies to optimise their use of environmental resources.
Fluidyn http://www.fluidyn.com	France	Aero thermal	<ul style="list-style-type: none"> 3D modelling software and consultancy services in computational fluid dynamics and Multiphysics for process optimisation and environmental risk and impact analysis.
LAFON TECHNOLOGIES http://pulse.lafon.fr	France	Electric vehicles	<ul style="list-style-type: none"> Offering a full range of charging stations for electric vehicles from 3kW up to 50kW.
APROVIS Energy Systems http://www.aprovis.com	Germany	Cogeneration technologies	<ul style="list-style-type: none"> Specialise in gas treatment solutions and exhaust heat recovery systems for CHP-plants.
DEGERenergie http://www.degerenergie.com	Germany	Solar	<ul style="list-style-type: none"> A market and technology leader for intelligent solar tracking systems with more than 75,000 installed units worldwide.
GreenCom Networks http://www.greencom-networks.com	Germany	Management & control systems	<ul style="list-style-type: none"> Provides cloud-based software for innovative energy management solutions.
SolarNext http://www.solarnext.eu	Germany	Energy conservation technologies focused on reducing CO ² Emissions	<ul style="list-style-type: none"> Comprehensive conceptual design, planning, layout and commissioning of solar/thermal cooling kits for commercial and industrial applications.

Company	Country	Sub-sector	Description
STEAG Energy Services http://www.steag-energyservices.com/ses-home.html	Germany	Management & control systems	<ul style="list-style-type: none"> Scope comprises the full range of power plant related services, from engineering and O&M services to IT solutions for monitoring and optimisation of plant operation and maintenance.
Biolang http://www.biolang.hu	Hungary	Biomass & landfill gas	<ul style="list-style-type: none"> Design and manufacture various composition biomass utilising boilers and heat energy plants.
Flex-Coop http://www.flex-coop.com	Hungary	Energy efficiency & carbon services	<ul style="list-style-type: none"> Patented product, EU Roller, is widely used in conveyors, mostly in mines, cement factories, biomass producers, waste / garbage processors.
Cloudindustries.eu http://www.cloudindustries.eu	Lithuania	Management & control systems	<ul style="list-style-type: none"> A cloud-based platform for monitoring and control applications within renewable power plants, smart metering and energy efficiency fields.
e-Traction http://www.e-traction.com	Netherlands	Electric vehicles	<ul style="list-style-type: none"> Specialise in energy efficient electric powertrain technology that develops, realises and implements a direct-drive in-wheel electric drivetrain solution which is called TheMotion.
HyGear http://www.hygear.nl	Netherlands	Energy conservation technologies focused on reducing CO ² Emissions	<ul style="list-style-type: none"> Supply cost-effective, environmental-friendly industrial hydrogen, nitrogen and oxygen gas in small bulk quantities.
Klaren International http://www.klarenbv.com	Netherlands	Geothermal	<ul style="list-style-type: none"> Develop self-cleaning heat exchangers for zero-fouling operation.
Plugwise http://www.plugwise.com	Netherlands	Energy efficiency & carbon services	<ul style="list-style-type: none"> A carefree, sustainable and affordable household and office energy control.
Elaphe Propulsion Technologies http://www.in-wheel.com	Slovenia	Electric vehicles	<ul style="list-style-type: none"> Specialise in R&D, production and custom development in the field of in-wheel electric motors and powertrain for passenger cars.

Company	Country	Sub-sector	Description
ClimaCheck Sweden http://www.climacheck.com	Sweden	Energy conservation technologies focused on reducing CO ² Emissions	<ul style="list-style-type: none"> World leader in optimisation of air conditioning, refrigeration and heat pump systems.
GreenPowerMonitor http://www.greenpowermonitor.com	Spain	Management & control systems	<ul style="list-style-type: none"> Specialise in monitoring, remote control and asset management solutions for renewable energy plants.
Swedish Exergy http://www.swedishexergy.com	Sweden	Biofuel technologies	<ul style="list-style-type: none"> Develop and market an innovative technology for processing of biofuels.
Croft Additive Manufacturing http://www.filters.co.uk	United Kingdom	Water solutions	<ul style="list-style-type: none"> Additive manufacturing for complex metal components.

Visit www.eubusinessavenues.com to find out more about the participating European companies.
